

Vino 100

Description:

Vino 100 is a new wine retail concept that makes buying wine simpler and more enjoyable. No longer does anyone need to feel intimidated when shopping for wine.

We arrange our wines by flavor and body instead of grape or county. What does that mean? Instead of all of the Chardonnays or wines from Chile being in one place, we display the wines by taste. We do this by having a ?Wine Barometer? for each wine to tell you where the wine would fall on the flavor and body scale. That way you can select a wine according to your taste preference.

Vino 100 has over 100 great wines for \$25 or less. Most of these are small batch, artisan brands that aren?t found at your local supermarket.

Don?t know what wine to buy? There is always a wine enthusiast on hand to assist you in selecting the perfect wine.

Vino 100 also has wine accessories, cigars, and smoker?s gifts to compliment the outstanding wine selection.

Vino 100, where they wine buying is as enjoyable as the drinking
